

SAS[®] Fair Banking

This Road Map briefly describes the media contained in your SAS Fair Banking package and how to proceed to install the software.

Description of Your Packages

Your package may contain as many as two installation kits. Each kit represents a distinct functional area of your SAS Fair Banking solution and should be installed on a separate machine:

- SAS Metadata Server
- SAS Fair Banking Server

How to Proceed

Be sure to terminate all non-essential applications before proceeding with the installation of any CD. Disable any anti-virus software that may be running.

Step 1: Install and configure the installation kit containing SAS Metadata Server.

- To identify the installation kit that contains SAS Metadata Server, see the product listing on the SAS 9.1.3 label on each kit. Unless you have already done so, follow the steps in the *QuickStart Guide* in the Getting Started folder of the SAS Metadata Server kit.
- Read and complete the tasks in the *SAS 9.1.3 Intelligence Platform: Installation Guide*, which is available on the **Documentation for Installing and Configuring SAS** CD or Install Center. On the first page, select **Planning Installation Edition Kit**, then select **SAS 9.1.3 Intelligence Platform: Installation Guide** in the “Installation” section under “Installation Instructions – SAS Intelligence Platform.” The *Installation Guide* takes you through the pre-installation, installation, and basic configuration steps to install your SAS Metadata Server.

Step 2: Install and configure the installation kit containing SAS Fair Banking Server.

Note: *If SAS Fair Banking Server was included in the SAS Metadata Server installation kit, skip to step 3. Otherwise, continue with this step.*

- To identify the installation kit that contains SAS Fair Banking Server, see the product listing on the SAS 9.1.3 label on each kit.
- Read and complete all of the steps in the *SAS Fair Banking 8.1 Installation Instructions* which are available at the following Web site:
<http://support.sas.com/documentation/onlinedoc/fairbanking/>. This process will install SAS 9.1.3 and the SAS Fair Banking Server software.

- ❑ Locate the **SAS AppDev Studio Server Components** CD in the media container(s) inside your installation kit. Insert the CD into your CD-ROM drive on the system where you installed the SAS Fair Banking Server. When the SAS Software Navigator opens, ensure that SAS AppDev Studio Server-Side Catalogs is selected in the left-hand pane. (If you are using a SAS Software Depot, find the **SAS AppDev Studio Server Components** CD in the Software Index and select SAS AppDev Studio Server-Side Catalogs.) Follow the installation instructions from that page to install the SAS AppDev Studio Server-Side Catalogs.
