

SAS[®] OpRisk Global Data

This Road Map briefly describes the media contained in your SAS OpRisk Global Data package and how to proceed to install the software.

Description of Your Packages

Your SAS OpRisk Global Data software comes in an installation kit and a folder, each representing a distinct functional area of your SAS OpRisk Global Data solution:

- SAS OpRisk Global Data Analysis Environment
- SAS OpRisk Global Data

How to Proceed

Be sure to terminate all non-essential applications before proceeding with the installation of any CD. Disable any anti-virus software that may be running.

Step 1: Install and configure SAS 9.1.3.

Note: *If your software package includes SAS OpRisk Global Data and SAS OpRisk VaR, ensure that the two SAS Foundation installs are on separate machines.*

- ❑ To identify the installation kit that contains SAS OpRisk Global Data Analysis Environment, see the product listing on the SAS 9.1.3 label on each kit.
- ❑ Read and complete all of the steps in the *QuickStart Guide* in order to install SAS OpRisk Global Data Analysis Environment.

Step 2: Install the SAS OpRisk Global Data media.

- ❑ Locate the SAS OpRisk Global Data media in your SAS OpRisk Global Data installation folder.
- ❑ Refer to the *Installation Instructions for SAS OpRisk Global Data* in your SAS OpRisk Global Data installation folder to install the product on your Windows client.
