Paper 197-2008

Implementation of SAS Warranty Analysis and Transition from Legacy Systems

Linda Coffey, Whirlpool Corporation
Mary Schmidke, Whirlpool
Deanna Schmidt, Whirlpool

ABSTRACT

Successful implementation of a new technology involves more than just the software application itself. Critical to success includes synergy between data entry processes, database structures, and end-user analysis requirements. At this session, you will hear from a panel of speakers from Whirlpool Corporation, the world's leading manufacturer and marketer of major home appliances. They worked on the implementation of SAS® Warranty Analysis system and the transition from legacy systems.
