Paper 288-2008

SAS® Workshop: SAS® Data Integration

Kari Richardson, SAS Institute Inc.

ABSTRACT

This workshop provides hands-on experience using SAS® Data Integration Studio and DataFlux® dfPower® Software to create quality data.

Workshop participants will:
• 　　　　define metadata for libraries and tables
• 　　　　build an ETL job to join three types of data sources (a SAS table, a Microsoft Access database table, and an external file)
• 　　　　profile and analyze data
• 　　　　build and then apply a standardization scheme (in ETL job) to cleanse data

No paper was submitted for publication in the *Proceedings*.　　　Check http://support.sas.com/rnd/papers/ or contact the author.
