ABSTRACT

SAS® Enterprise Guide® and SAS® Add-In for Microsoft Office for SAS® 9.2 and SAS® Enterprise BI Server 4.2 provide many new enhancements to help SAS® programmers, business analysts, and other business users be more productive with SAS®. This paper and presentation will introduce you to some of the highlights including a revamped user interface in SAS Enterprise Guide, opening SAS Reports from the Add-In, a new PROC report-based wizard, and much more. Customers will find many reasons to upgrade to or get started for the first time with the new releases.

No paper was submitted for publication in the *Proceedings*.   Check http://support.sas.com/rnd/papers/ or contact the author.
