I Didn't Know That Was Being Used! Keeping Track of What Is Being Used in Your SAS® EBI Environment

Craig Rubendall, SAS Institute Inc.

ABSTRACT

A common question that arises in a SAS® Enterprise deployment is "what is being used?". The "what" might be reports, stored processes, SAS® sessions, CPU, etc., depending on your point of view.

This paper will discuss techniques for measuring, and reporting on, the usage instrumentation in your SAS® 9.1.3 system and will include insight into "what's new" in this area for SAS® 9.2.

No paper was submitted for publication in the *Proceedings*. Check <http://support.sas.com/rnd/papers/> or contact the author.
