Backup and Disaster Recovery: When Disaster Strikes, What Will You Do? What Will You Do?

Arthur Hunt, SAS Institute Inc.
Tanya Kalich, SAS Institute Inc.
Billy Dickerson, SAS Institute Inc.
Chuck Antle, SAS

ABSTRACT

This presentation provides a conceptual framework for creating a backup and disaster recovery plan for your SAS® solution. It covers often-overlooked subtleties in backing up the SAS® Metadata Repository, the WebDAV repository, and the associated configuration files, as well as ensuring synchronization of the pieces that are required to work together. It will help administrators avoid the common pitfalls and ensure that their site is able to be up and ready as soon as possible in the event of small or large disasters.
