Migrating Your SAS® Applications to SAS® 9.1.3 and Beyond

Diane Hatcher, SAS Institute Inc.
Margaret Crevar, SAS Institute Inc.

ABSTRACT

You have heard about the new features of SAS® 9, but you have several mission-critical SAS® 8 applications written with products that are no longer being talked about (i.e., SAS/IntrNet® and SAS/AF® software). You would like to be able to move these applications forward to SAS®9 so that they can work with the full-featured Business Intelligence, Data Integration, and a multitude of Analytical Solutions that are part of the SAS 9.1.3 intelligence platform.

This paper describes the steps to do this migration along with some tips and tricks to ensure that your SAS 8 application behaves nicely in SAS® 9.

No paper was submitted for publication in the *Proceedings*. Check <http://support.sas.com/rnd/papers/> or contact the author.
