

Paper 347-2008

SAS with Revenue Generation

Alexandre Grizagoridis, Oi

ABSTRACT

Oi, a Brazilian fixed line and mobile telecommunications operator, has been working with SAS® software since 2005 to design cost-effective solutions for complying with a growing number of government directives that affect Oi's revenue assurance. The latest directives change how calls are recorded for billing purposes (from pulse metering to time metering), but Oi is using SAS to ensure that the company's bottom line is not impacted and remains healthy.

No paper was submitted for publication.
