Beyond the Basics: Advanced PROC REPORT Tips and Tricks

Allison McMahill, SAS Institute Inc.

ABSTRACT

This paper is a compilation of tips and tricks used to produce desired PROC REPORT output. The problem of ordering rows, moving column headers, changing summary values, adding multiple summary rows, repeating ORDER/GROUP variables, adding text to the top and/or bottom of the report, calculation of variables under an ACROSS, alignment of decimal values, and creating various percentages are addressed. Other topics include issues directly related to the Output Delivery System such as adding URLs, changing styles using CALL DEFINE, adding lines, using a format to change a style, and some other goodies.

No paper was submitted for publication.
