Troubleshooting SAS® Foundation and SAS® Enterprise Intelligence Platform Installs
Anja Fischer, SAS Institute Inc.
Sandy Gibbs, SAS Institute Inc.

ABSTRACT
This is the first of a two-part presentation that allows users to select which (or both) of the two parts most closely meets their needs.

Part 1: Troubleshooting Your SAS® Foundation and SAS® Enterprise Intelligence Platform Installs
This presentation covers recommended steps to reduce problems with your initial installation of the SAS Foundation and the SAS Enterprise Intelligence Platform. These troubleshooting techniques can help you prevent having to spend extra hours completing your installation. Topics to be covered include creating SAS® software depots, identifying software conflicts, diagnosing errors, and understanding why Administrator access to the system is required to perform the SAS installs.

Note: The presentation is based on the Windows platform, but information for UNIX and z/OS (formerly known as MVS) is also provided.

Part 2: Changing the SAS Environment and Troubleshooting SAS Application Servers begins at 11:00 a.m.

No paper was submitted for publication.
