Changing the SAS® Environment and Troubleshooting SAS® Application Servers

Anja Fischer, SAS Institute Inc.
Sandy Gibbs, SAS Institute Inc.

ABSTRACT

This presentation is the second of a two-part presentation to allow our customers to select which (or both) of the two parts most closely meets their needs:

The first part begins at 10:00 a.m. and covers Troubleshooting your SAS® Foundation and SAS® Enterprise Intelligence Platform Installs

This presentation discusses various aspects of changing your SAS Enterprise Intelligence Platform environment. Topics include moving SAS® 9.1.3 application servers, such as the SAS workspace server and the SAS® Stored Processes server, from an existing environment to a new machine, and moving metadata repositories from old to new machines. Important information and details will be provided which will help for future SAS environment change considerations.

The presentation concludes with a segment to give you an understanding of the SAS 9.1.3 application servers, their interactions, and how to troubleshoot them.

No paper was submitted for publication.
