Securing Your Deployment: SAS® Metadata Security
Anja Fischer, SAS Institute Inc.

ABSTRACT
The goal of this presentation is to explain how to secure your deployment in the best way and to provide you with guidelines on setting up the necessary permissions. This presentation has two parts:
• Part 1 offers important tips and information about operating system permissions, permissions to protect the configuration directories, encryption and encoding in SAS®9, and metadata permissions to protect security-related resources within your SAS® Foundation repository.
• Part 2 offers tips for managing users and groups and securing your SAS® 9.1.3 metadata and provides guidelines for setting up permissions.

No paper was submitted for publication.
