**CATALOGER: View, Document, Compare SAS® Catalog Entries and SAS® Data Files**

Easily View the contents of multiple SAS catalogs side-by-side.

Click on ASCII.CLASS and the list displays.

Expand a sublist by simply clicking on it. Clicking again collapses it.
Click on the “+” character and the window is instantly zoomed.

SAS Formats are easily viewed.

As are graphic images.

Click on “Revert” and the catalog entries re-display.

FRAME entries can be displayed in a scrollable, zoomable window.

The FRAME widgets can also be displayed.
CATALOGER displays SAS catalog entries in a simple point & click fashion including:

- All list-based entries including SLIST, LIST, CLASS, EIS, RESOURCE, FOLDER.
- FRAME entries including the FRAME image, widgets, & associated SCL entry.
- PROGRAM, SCL, SOURCE, HELP, CBT, LOG, OUTPUT.
- FORMATs
- GRSEG & IMAGE.
- Entries that are not otherwise conveniently viewed in a scrollable window: KEYDEF, FORM, DEV, FONT.
- PMENU & TOOLBAR.
- Special types including ASCII files and Video (*.AVI files).

You can print anything you see in a CATALOGER window.

You can print:

- Directly to the printer.
- To a file.
- Directly to a Microsoft Word® document. CATALOGER can insert all printed output directly into a Microsoft Word document.

You can print all catalog entries of one type at once. For example, you can print all FRAME entries in a catalog - the FRAME images, widgets, and associated source code by the push of a button!

This gives you instant publication-quality SAS catalog documentation.
Compare catalog entries.
Display entries in one catalog that are not in the other.
Display entries in one catalog that are older/newer than the same-named entries in the other.

Perform side-by-side comparison of all text-based entries - SCL, SOURCE, SLIST, CLASS, etc.

“Stop at Mismatch” displays popup when lines mismatch.
Mismatched lines are highlighted.

Easily view detailed differences in FRAME entries.
Select one or more checkboxes to view specific differences.

Stop at Mismatch displays popup when lines mismatch.
Mismatched lines are highlighted.
Summary of mismatches is displayed.

All mismatched lines are highlighted.

Compare two SAS data sets side-by-side.

Easily view detailed differences between SAS data sets.

Select one or more checkboxes to view specific differences.
OTHER FEATURES:

- Any number of CATALOGER windows can be created. This means any number of catalogs or SAS data libraries can be concurrently viewed and compared.
- Display SAS data sets in one library that are not in another library.
- Display SAS data sets in one library that are older/newer than the same-named ones in another library.
- New CATALOGER windows can be created at run-time.
- CATALOGER windows can be resized and moved at run-time.
- Ability to synchronously scroll the contents of multiple CATALOGER windows.
- SCL and SOURCE entries are printed with line numbers.
- Ability to export images, including FRAME images, to different image types (e.g. BMP, TIFF, GIF, etc.).
