

Paper 6-28**Version 9 Epiphanies**

S. David Riba, JADE Tech Inc.

Abstract

Every new release of SAS®; software introduces new features into the SAS programming language, and adds improvements to existing program elements. Version 9 is no exception. This presentation will examine some of the subtle surprises that can be useful to improve your SAS programs. Emphasis will be on new and improved functions, formats, and options. The presentation will examine existing programming techniques and look at ways of improving them with new version 9 features.
