Getting the Most Out of SUGI -- An Interactive Panel Discussion

ABSTRACT

The SAS® Users Group International (SUGI) is in its 31st year and continues to adapt to the changing needs of SAS users. As a volunteer organization, SUGI continues to attract people who have all types of specializations and skills and are from all types of industries. As we celebrate the 3rd decade of volunteerism, we want to take this opportunity to share with you various perspectives on what it's like to get involved.

This interactive panel discussion will highlight the various roles that are needed to make SUGI happen each year, and outline how the conference is organized and how decisions are made. Then, the audience will have a chance to ask questions of this panel of experienced volunteers.

“There is no published paper for this panel discussion”

For additional information go to www.sas.com/sugi, select the current conference. The volunteer form is found under ‘Online Tools’.
